## 1914 ANNOUNCEMENT

# PAIGE 36—\$1275

### STILL MORE FOR THE MONEY —NO CHANGE IN THE PRICE

Gray and Davis Electric Starting and Lighting System

**FOR** the past season, the Paige "36" at \$1275 has been **RECOGNIZED** by **EVERYBODY** as such **EXTRA VALUE** that it has had no competition. Manufacturers and dealers with cars selling at similar prices have declared the Paige "36" "a gift" at the price. They haven't even **HOPED** to compete with it. They have been content to get their share of the business that we couldn't handle.

The equipment of the Paige "36" is universally acknowledged to be of a character and completeness only found on the highest priced cars. But bear this in mind—it is the Paige car itself, not its equipment that has demanded the consideration of the trade and public alike and that is responsible for its overwhelming popularity. Clothes don't make the man and neither does equipment make a motor car. It is the superior design, the unusual mechanical features, the power and flexibility of the wonderful Paige motor, the quality of materials and workmanship, and the splendid construction of the Paige "36" throughout that have kept the thousands of Paige owners, in all parts of the world, enthusiastic over their cars and made every one of them a Paige "booster". No amount of equipment could possibly accomplish this if the car itself was not right. When you come to look at the Paige car, if you are not an automobile expert bring one with you. You can judge the equipment yourself, but let him judge the Paige construction. He will tell you that entirely aside from the equipment, no other car has ever been produced at anywhere near the price that will give you as much in fine construction, size, power, economy, comfort and style as the Paige. These are the qualities on which it will pay you well to judge your motor car.

It is hard to realize that the price of the Paige "36" is only \$1275. A really big, roomy car; 116-inch wheel base; left side drive and center control, a powerful, quiet 4x5-inch Paige motor; unit power plant; silent chain drive for cam shaft, pump and generator; deep tilted 19-inch cushions and a score of other features of design and construction which place this car beyond competition. As for equipment, in every detail, from starter to tail lamp, it is all of the highest class.

Last year a lot of big men in the trade said we couldn't afford to sell the Paige "36" for \$1275, and that we couldn't continue that price. After three or four months the same big men in the trade—alarmed at our sweeping supremacy—said, "They are making a strong play for popularity now, but watch out for their 1914 price."

Well, the 1914 price is \$1275, just the same. Not a dollar added in cost to you, but look at the added equipment: Electric Horn, Jiffy Curtains, Combined Rain-Vision and Ventilating Windshield, Non-Skid Tires in the rear, and Ventilated Hood.

All of this is added on for 1914 and the price remains the same. If the Paige "36" has been sensational value this year—and for every car delivered there have been many purchasers waiting—what a value it is for the coming year! No other car approaches it in value at the price, and you would have to pay four or five hundred dollars more to find more value in any car.

This isn't "advertising talk." It is just the plain old-fashioned unvarnished truth and almost anybody that knows automobiles will tell you so.

Production has been increasing steadily in the factory and we are able to take care of more purchasers all the time now. The plant is working day and night. Deliveries of the 1914 models are being made as promptly as could be expected in the case of a success like the Paige "36." Our immense new factory is under construction and our removal to it will still further facilitate Paige production.

Above all things else, the Paige "36" deserves consideration first just as a car. But consider its equipment, too. Regular equipment includes the Gray & Davis electric starting and lighting system, Bosch magneto, rain-vision and ventilating windshield, genuine mohair top [tan lined] and boot, electric horn, Stewart revolving dial speedometer, 34x4-inch non-skid tires in rear, 12-inch electric headlights of parabolic design in black enamel and nickel, 5-inch electric side lights, flush in dash, crystal cut lens, 3-inch electric ruby light at rear, adjustable foot rest, nickel robe rail, demountable rims with extra rim, Jiffy curtains, extra tire irons, pump, jack, tools, tire repair outfit, etc., complete.

The 1914 season will be a distinctive Paige triumph. Keep that in mind. Just as the 1913 season has been a Paige triumph. Because in the Paige "36" and the Paige "25" the public finds extra value which no other car can give.

# PAIGE 25—\$950

### Electric Starting and Lighting System, \$75 Extra

From this date we will equip the Paige "25" with an electric starting and lighting system for \$75 extra. The car is designed to take the equipment, and it will be added at request. Present owners can also have this system installed on their car. Dealers will furnish prices and details. Think of this car, with electric starting and lighting for only \$1025. Wheel base, 110 inches; 32x34-inch tires; sturdy, silent motor, 34x4 inches; unit power plant; cork insert multiple disc clutch; wide doors; roomy body.

Previous models of the Paige "25" laid the foundation for the high reputation of the Paige car. For the past two years, especially, the "25" has been recognized as a splendid, reliable car at a low price. And all this time we have worked steadily on refinements and minor improvements many of which are found in this year's models.

Equipment of Paige "25" is very complete, including genuine mohair top, side curtains and top boot; ventilating windshield, built into body; speedometer; two black enamel and nickel gas headlights, three black enamel and nickel sidelights and tail light; demountable rims, one extra; non-skid tires in rear; robe rail; linoleum covered running boards; tire irons; horn, pump, jack, tools and tire repair outfit. Five-passenger touring car, equipped complete as above, \$950.

## Coca Cola Habit, A Ghost.

We have all heard of ghosts, but none of us has ever seen one. It's the same way with coca cola "fiends;" you can hear about them but you might search for them until doom's day and you would never find one. Physicians who have treated hundreds of thousands of drug-habit cases, including opium, morphine, cocaine, acholol, etc., say that they have never seen a case where the use of Coca-Cola has so fastened itself upon the individual as to constitute a habit in the true sense of the word. Although millions of glasses of Coca-Cola are drunk every year, no Coca-Cola fiends have ever made themselves visible at the doors of the sanitariums for the treatment of drug habits.

The Coca-Cola habit is analogous to the beefsteak habit and to the strawberry habit and the ice cream habit. People drink Coca-Cola first because they see it advertised and thereafter because it tastes good and refreshes their minds and bodies. They drink it when they can get it and contentedly do without it when they can't get it. If you had ever witnessed the ravings of a real drug fiend when deprived of his drug, if you had ever observed the agony he suffers, you would never again be so unfair as to mention Coca-Cola in the same breath with the "habit-forming" drugs.

## Resolutions by the Normal.

I. WHEREAS, the good citizens of Hondo have shown us every courtesy, and put forth every effort to make this Normal a success, be it resolved that we tender them a vote of thanks in appreciation of their splendid hospitality.

II. BE IT FURTHER RESOLVED, that since this Normal was made possible by liberal donations from the town, that we tender our heartfelt thanks to those who so ably assisted us in this educational work.

III. WHEREAS, this Normal has been better attended than most of the Normals of the west, and since we believe the work to have been equal to any; therefore, be it resolved that we favor a Normal for this section of the state for next year and pledge our support to same.

IV. WHEREAS, our Normal has been so ably conducted by Prof. T. C. Hickman; therefore, be it resolved that we vote him our thanks for his untiring energy in this work.

V. WHEREAS, the trustees of the Hondo High School have been so kind as to let us use their building; therefore, be it resolved that we tender them a vote of thanks.

Adopted by a unanimous vote of the student body of the Normal.

## Better Paint

Better paint this year if your property needs it. Mistaken men have been waiting for paint to come down. The cost of their job has gone up not down; it always goes up by waiting; never comes down.

Better paint than Devoe? There isn't any.

Suppose one had waited 20 or 30 years ago for a better paint than Devoe; how long would he have waited?

The price a gallon makes some difference; yes, but not much; it's the paint that counts; the quality counts. It's the go-for that counts. Protection of property counts more yet.

Better paint.

DEVOE

Holloway Bros. sell it.

## THE COURTING OF EBEN STORM

How a Confirmed Bachelor Was Brought to His Knees.

Eben Storm for a time worked his farm without the aid of any woman. "They're dreadful unsartent creatures," he said. "Y' can't calculate just what they're goin' to do. Most of my friends as has gone into matrimony has had trouble from the time they married and wished they was out of it. There's Joe Biglow fit with his'n and livin' a cut and dog life. Tom Tinker divorced, Bill Andrews drowed to drink. The wimmin don't show their real selves till after the ceremony. I don't intend to put myself where they kin get at me."

But as his farm lands and crops and stock increased he felt the need of women's help. He no longer had time to do the cooking or the washing or milking, and he took in a housekeeper, the ugliest and oldest he could find. It was not long before he had others. Since he had made a break he might as well rely on his resolution to protect him and took in several maids, one of whom—Mary Baker—was quite pretty. When Mary came he felt that she had brought danger, but considered himself equal to the task of keeping out of her toils.

One winter morning something happened. Mary was going out to do her milking—she, walking directly behind her, to feed the stock. Mary slipped on a bit of ice and fell right into his arms. He turned her face up toward his and kissed her. Then he pushed her away. Mary blushed and went on.

It had all come about so quickly that he couldn't understand how he had done such a thing. He didn't look at Mary all that day, and when she asked him what she should "do with the black and white cow," she kicked so, he turned away without answering her.

A few days later Mary was brought into the house badly injured by a kick from the black and white cow. Eben scolded her for not having taken precautions against such a result, intimating that if she had told him the cow kicked he would have milked her himself. Mary made no reply to this. Perhaps she knew with woman's intuition that he was not scolding her, but himself. Perhaps she felt aggrieved at his unjust treatment. He didn't go near her while she was recovering.

Next a fractious bull gored Eben and came pretty near killing him. Mary asked him if she could do anything for him. He said "No" very shortly, but when she went away called her back and told her she might put a pillow under him.

She did most of the nursing till he was out of danger, then ceased her visits to him. He called for her and asked if she was so inhuman as to let him die all alone when every one on the farm was busy. She made no reply to the question, but asked him what he wanted. He mentioned several things, which she got for him, then left him again. This irritated him, and he called her back.

"Mary," he said gruffly, "what did you slip for the other day—a purpose?" Mary walked out of the room with her nose in the air.

He recovered slowly and, all the while having nothing at all to do but think, thought of what was on his mind—Mary. He was sure she was trying to marry him, but she was losing the power to protect himself against her. When he got well he went to her when she was churning and said:

"Mary, I suppose you want a home. Most women do. I don't want to disappoint you. Will you marry me?"

"No, I won't," she said angrily.

Nothing occurred in this peculiar courtship for several days, when he met her coming from the barn.

"Her you thought better of it?" he asked.

"Of what?"

"Marryin' me."

"You don't want to git married," she said.

"Waal," he replied musingly, "I don't know as I do."

This made Mary furious. "I'm goin' when my month's up," she said.

"Goin'?"

"Yes. You'd better git another girl."

This knocked the bottom out of Eben's theory that Mary had been trying to marry him. But he didn't give it up entirely till he learned from a neighboring farmer that she had asked him if he wanted help. Nevertheless he was puzzled. He thought that if he could do something to convince Mary that he loved her she would yield. He finally hit on a plan.

The Weekly Eagle came out Saturday morning. One Saturday afternoon when Mary, dressed for a half holiday, started to go out she saw all the occupants of the farm gathered about her employer shaking him enthusiastically by the hand. Several were reading the Eagle over the holder's shoulders.

"La' sakes," exclaimed Mary, "what's the matter?"

A faint terror seized her that something important had occurred to her singular lover that might affect her interest in him. All rushed to her, holding out the paper and pointing to an item in it. She read:

Our fellow citizen Eben Storm permits us to announce his engagement to Mary Baker. This removes from our bachelors the best catch in the county. We congratulate him on his approaching nuptials.

Mary looked at him with fire in her eye. Then, suddenly breaking into a smile, she said:

"You silly gawk!"

There was another editorial in the Eagle when they were married.

## TIMELY HINTS FOR FARMERS

### Fattening Fowls.

The Pennsylvania station suggests the following grain rations for fattening poultry as having been used with success:

Where a yellow flesh is wanted a ration should be made of cornmeal, five parts; ground oats, hulls removed, two parts; animal meal, one part. Mix with sour milk. Where a whiter flesh is wanted the following rations are recommended: Cornmeal, two parts; ground buckwheat, two parts; ground oats, two parts. Mix with sour milk. Another—barley meal, two parts; mid-dings, two parts; buckwheat, two parts; cornmeal, one part. Mix with sour milk. Another—the refuse from shredded wheat and sour milk.

When birds are confined for fattening sour milk aids digestion and keeps the system from getting feverish. If no milk is available some form of animal or green food must be supplied to make the best gains.

### Feed the Fall Pigs.

It used to be the practice years ago to keep pigs or hogs until eighteen months old before killing, in this way obtaining a slower and larger growth, but this is not much practiced now. With present methods it is found better and cheaper to grow and fatten pigs so that at the age of from six to ten months old they will make the best kind of meat for the market or home use. But to do this they must be kept steadily growing and fattening from the first, having all the milk and grain feed they can eat and properly assimilate. This is found to be cheaper per pound of gain than keeping them twice as long.

### Profit in Horse Raising.

The farmer who is planning to raise more horses that are up to the demands of the market will be the one that will succeed with live stock. Every year the city markets are calling for more horses, and even though the supply does not meet the demand, only one horse out of every three is found up to the standard. It looks as if there ought to be money in it for the man who can raise the horses that meet the required standard.

## PROPER FEEDING OF YARDED HENS.

Variety of Grains and Exercise Are Necessary.

In feeding grain to yarded fowls a heavy litter of straw should be provided in a dry place and changed once a month. The grain should be mixed equal parts by measure of corn, wheat and oats or Kaffir, wheat and oats, this to be fed in the litter twice a day very sparingly of mornings and all they will clean up of evenings.

For poultry on range the morning feed may be omitted if there is a millet stack handy, which there should be, says the Kansas Farmer. The evening feed should be scattered over a large area to give all a chance to get what they will eat, as nothing is gained by stinting poultry on feed, or other stock, for that matter.

A variety of grains ground fine and kept before the poultry at all times in feed troughs covered with wire netting is a great help in egg production and also for young, growing stock. For yarded fowls alfalfa meal and beef scrap should be added at the rate by weight of one-tenth beef scrap and one-tenth meal. Laying hens should also have oyster shell kept before them.

Unless one has alfalfa close to the poultry houses oats should be planted the latter part of March. In sowing, oats for poultry it is best to sow them thick on top of the ground, then plow them under. This places the seed and roots of the plant too deep for the fowls to scratch out and makes green pasture for them until weeds and grass start. Then they stop working on the oats, which gives them a chance to mature and make a seed crop.

### Around the Farm.

Do not let the farm animals stay out in a storm this time of year.

Feed the hens some green food. Cabbages are good; so are beets.

Would it not be better to milk a less number of cows this year and have better ones?

Scions may be cut any time now when not frozen and kept in damp sand until time to set.

Select a warm day in February and properly cut back the grapevines. If neglected until spring the vines "bleed" too much, so it had better be done now.

A stormy day may be turned to good account in oiling the harness and perhaps taking a few stitches here and there or perhaps put in a few rivets. If well served it is better as a general thing, however, than rivets.

### Ventilation For the Hogs.

A house to accommodate a single sow does not need a great deal of ventilation, although there should be enough to keep the air in good condition, but where a dozen or more hogs are kept in the same house perfect ventilation is necessary.

## Don't Look Old Before Your Time

WOMAN'S delicate system requires more than ordinary care and attention—more care and attention than it is given by the average woman. Neglect it and fill soon creep in, and the look of old age, sometimes quickly, sometimes gradually follows.

That backache, so common among women, brings with it theunken chest, the headache, tired muscles, crows' feet, and soon the youthful body is no more youthful in appearance—and all because of lack of attention.

There is no reason why you should be so unfortunate, when you have at your disposal a remedy such as Dr. Pierce's Favorite Prescription—a remedy commended for over 40 years as a remedy for ailments peculiar to women. We have thousands upon thousands of testimonials on file—the accumulation of 40 years—testifying to its effectiveness. Neither narcotics nor alcohol are to be found in this famous prescription. It regulates irregularities, corrects displacements, overcomes painful periods, tones up nerves, brings about perfect health. Sold by dealers in medicines, in liquid or tablet form.

Dr. Pierce's Favorite Prescription  
Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

**Make John A Business Man — Mary A Business Woman.**

Most parents do not have the advantages of a Business Training at their door, and are not satisfied to see their sons and daughters go through life as they have without this training. They want to see their sons become bright-eyed, keen, alert business men, able to figure rapidly and accurately, to spell well, to write a good hand; to be able to draw up notes, deeds and mortgages. They want to see them in business for themselves, or on a good salary as bookkeeper or office manager.

They want to see their daughters obtain a salary-earning education that will make them independent, or that will enable them to use wisely anything which they might have bequeathed to them. They want their daughters to have an insurance against any misfortune which might come.

It is to this class of parents that SAN ANTONIO BUSINESS COLLEGE appeals most strongly.

Send us that son and that daughter, and if there is a man in the boy or a business woman in the girl we will surely develop it.

Write today for catalogue, terms and pictures of successful graduates. Address: H. C. Mitchell, President, SAN ANTONIO BUSINESS COLLEGE, San Antonio, Texas.

I used them for some time and am now all right." Sold by W. H. Windrow.

Some things that some people take most seriously are considered funny by others.

Stepping on a rusty nail has been the cause of many cases of lockjaw. The nail was not so much the fault as neglect of the wound. If such wounds were promptly cleansed and BALLARD'S SNOW LINIMENT applied there would be no lockjaw, as the antiseptic properties of the liniment would counteract the poison and the wound would heal quickly. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Many a man is a failure because he is satisfied with "something just as good."

**PRACTICAL BAKING LESSONS**

PUDDINGS

In this lesson we will treat on puddings, both baked and steamed. The secret of getting light, palatable pudding is in not baking or steaming too fast. The pudding must have a slow even heat until it has become light and porous. If directions below are followed failure is impossible.

*Nevada Briggs*

**Marble Pudding**

2 cups sifted pastry flour  
2 level teaspoonsful K C Baking Powder  
1/2 teaspoonful cinnamon  
1/2 teaspoonful salt 1/4 cup sugar  
Yolks of 2 eggs, beaten light  
4 tablespoonsful melted butter  
1/2 cup cold water  
Whites of 2 eggs, beaten dry  
1/2 ounces melted chocolate

Sift together, three times, the flour, baking powder, salt and cinnamon. To the yolks add the sugar, butter and water, and stir into the dry ingredients. Add the whites of the eggs. Divide the mixture into two parts and add the chocolate to one part. Dispose the two parts in a buttered mold to give a marbled appearance. Steam thirty-five minutes.

In mixing egg and sugar, use a rotary egg beater making a light creamy mixture of egg yolks and sugar. In steaming pudding have low flame under the water for at least the first 15 minutes, giving the pudding time to rise before cooking.

Serve with Vanilla Sauce.

**Vanilla Sauce**

Boil 1 cup of sugar and 1/4 cup of water six minutes; add 2 teaspoonfuls of butter and a teaspoonful of vanilla extract.

**Cherry Pudding**

2 cups sifted pastry flour  
2 level teaspoonsful K C Baking Powder  
1/2 teaspoonful salt 1/4 cup butter  
2 eggs 1/4 cup milk (scant)  
Cherries  
Salt or 1 tablespoon butter

Sift together three times, the flour, baking powder, salt and work in the butter; beat eggs, add milk to eggs and stir into the flour. Half fill a baking pan with cherries, add bits of butter and pour batter over top of cherries, and bake slowly for fifteen minutes, then increase heat and bake until pastry is done. Turn on a plate with cherries uppermost, serve with hard sauce or very sweet cherry juice. Other fruits, such as apples, peaches, apricots, berries or bananas may be used.

**Hard Sauce**

Cream 1/4 cup butter with 1/4 cup sugar and flavor to suit, putting over pudding when pudding is still warm.

**Prune Kuchen**

2 cups sifted pastry flour  
2 level teaspoonsful granulated sugar  
1/2 teaspoonful salt 1/4 cup butter  
2 level teaspoonsful K C Baking Powder  
Cinnamon to taste 1 egg  
1/4 cup milk 1/2 pound prunes

3 tablespoonsful melted butter and 3 tablespoonsful sugar for top of Kuchen.

Sift together, three times, the flour, sugar, salt and baking powder, and work in the butter. Beat the egg; add the milk, and stir into the dry ingredients. Turn into a shallow buttered pan and spread the dough evenly in the pan. Have the prunes cooked tender and remove the stones. Press the prunes skin side down, into the top of the dough.

**Baking Helps**

Select materials with great care. The best of everything is always the cheapest. To have a perfect finished product we must first have good material for our foundation. In selecting materials for baking, first get a high grade baking powder, for unless properly leavened, food is not palatable. A high grade baking powder is not necessarily a high priced one. K C Baking Powder is medium in price, but of the highest quality, made of the best and purest of materials properly combined to produce the best possible results.

For cakes and pastries a soft wheat pastry flour is preferable. To determine a soft wheat from a bread, or hard wheat flour, press it tightly in the hand; if the flour stays packed in a mass showing the imprints of the fingers, it is a pastry flour; if it falls through the fingers sandy, it is a bread flour, and should be used only with yeast.

Shortening must be fresh and sweet. Sugar should always be cane sugar.

Water is equally good as milk in all articles where a large amount of sugar is used, except for cookies.

Larger masses of dough require longer time for rising and baking.

Bear in mind that baking rules are as important as measuring rules. Do not bake cakes, pudding and such pastries as short cake, dumplings and meat rolls with a hot fire at the start. Have a slow oven until the dough doubles in bulk; then increase heat to bake and brown.

Biscuits, cut cookies and pie pastry require a hot oven.

Have food thoroughly cooked. Half cooked pastries are hard to digest and injurious, better to over-bake than under-bake.

## TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"Tess and Ted" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have sole-leather heels, soles and counters. No substitutes for leather are ever used. See No. 3130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We have fully endorsed it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 700 other styles of "Star Brand" shoes are for sale by 20,000 good merchants. Don't just go into ANY store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insure honest values.

"Star Brand Shoes Are Better."

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging  
Conditions, Mrs. Bullock Gave  
Up in Despair. Husband  
Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

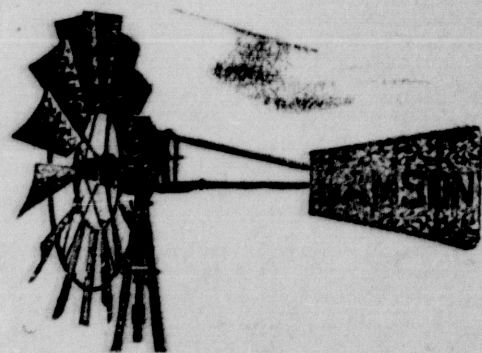

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

The Upper Hondo Sunday School gave a basket picnic on the 26th of this month. A nice crowd of people came out and enjoyed the day. A nice program was rendered by the Sunday school children consisting of songs, recitations and reading. Bandera, Tarpley and Hondo were well represented at the picnic.

### Those Bagpipes.

Although not a Scotchman, he had accompanied his Gaelic friend on the annual picnic of the folk from the land of the thistle who resided in this city.

Partly because he was a big politician and partly because, being an outsider, he would not be apt to show partiality, he was asked to judge a bagpipe contest between two lusty fanged champions to settle a long dispute.

As the musicians began playing after untold their favorite selections he was seen to lean back and close his eyes. When, at the end of an hour, the duel ended, all waited for him to open his eyes and proclaim the victor.

But he remained inert, silent, his eyes still tightly closed. Finally his friend stepped up to him and shook him. There was no response. Alarmed, the friend felt his pulse, lifted his eyelids, then, amid a sudden hush of growing alarm, turned to the two musicians and in an awe struck whisper exclaimed:

"I canna fix the blame, lads, but one of ye has kilt the puir judge!"—Fun.

### Terrible Fate.

During one of the aviation meets a young woman went through the hangars under the guidance of a mechanic. After asking all the usual foolish questions that aviators and their assistants have to answer during a tour of inspection she wanted to know: "But what if your engine stops in the air—what happens? Can't you come down?"

"That's exactly the trouble," responded the willing guide. "There are now up in the air in France—planes stopped. They can't get down. They're starving to death!"—Telegraph.

### Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by W. H. Windrow.

### The Mexican Situation

The trouble in Mexico has developed one fact of importance in the U. S., and that is that both the Federals and Constitutionists are firm believers in Hunt's Lightning Oil the great American remedy for neuralgia, rheumatism, cuts, burns and other aches and pains. No wonder, since it makes the pain go away almost at once. All druggists sell it in 25c and 50c bottles.

If a woman isn't ashamed to wear her old clothes it's a sign that she is rich.

### Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by W. H. Windrow.

**YOU** who require the best and purest medicine see that you get Foley's Honey and Tar Compound in preference to any other for all coughs, colds, croup, asthma, hoarseness, tickling throat and other throat and lung troubles. It is a strictly high grade family medicine, and only approved drugs of first quality are used in its manufacture. It gives the best results, and contains no opiates. A. R. Ellison, Taylor, Wis., says: "I always use Foley's Honey and Tar for coughs and colds because I find it a sure cure and a safe one."

### Appointed Mexican Consul.

Many Clarendon people will remember William P. Blocker, a grandson of Col. and Mrs. R. S. Kimberlin, and a nephew of Mrs. A. M. Beville and Mrs. Isaac Looney, and who has visited several times in Clarendon. He spent last Christmas holidays here and was here again in January. He was then a traveling salesman for Swift & Company from their Clovis, N. M., branch, but resigned this place in January and went to San Antonio and traveled for Morris & Company, covering the Rio Grande territory. May first Mr. Blocker was appointed Assistant Consul at Piedras Negras, Old Mexico and on last Monday was appointed Consul to succeed the Consul resigned, after a service of less than three months. He has a salary of \$4,000 per year. This shows the possibilities of an American boy, for Mr. Blocker is now just twenty-one years old. Mr. Blocker is a graduate of the Hondo High School and taught Spanish there when he was only eighteen years old. His father is a prominent attorney in Southwest Texas and resides at Hondo, fifty miles beyond San Antonio. —Clarendon News.

### Kidney Trouble began with a lame back

J. L. Hackl, 915 Eight St., Lincoln, Ill., was recently cured of a bad case of kidney trouble that started with a lame back and says: I am certainly thankful of getting a cure of my kidney trouble by using Foley Kidney Pills. Backache, weak and lame back with soreness over the kidneys, sharp pains, rheumatism, dull headache, and disturbed sleep, are all indications of trouble that Foley Kidney Pills will relieve quickly and permanently. They contain no habit forming drugs.

### The Turning Point.

I met her in her bathing-suit:  
Somehow, I've never felt the same.  
She'd always seemed so plump and cute  
I met her in her bathing suit,  
Returning from a dip, to boot;  
And then the disillusion came!  
I met her in her bathing suit—  
Somehow, I've never felt the same!

### The Best Pain Killer.

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain of Clinton, Me. says: "It robs cuts and other injuries of their terrors. As a healing remedy its equal don't exist." Will do good for you. Only 25c. at W. H. Windrow's.

### Scratching For Fun

We would have great sympathy for those who have to scratch continually, if there wasn't a remedy for the trouble, but as Hunt's Cure is Guaranteed to cure or money refunded, it would seem that those who scratch do so just for the fun of it. It's a special remedy for Itch, Eczema, tetter, ringworm, etc.

### Science and the Milkman.

Housekeeper: "What makes you so late with the milk these mornings?"  
Milkman: "Well, you see, Mum, the pure food law don't allow us more than twenty-five million bacteria to the gallon, an' you wouldn't believe how long it takes to count the little devils."

### Calomel is Bad

But Simmons' Liver Purifier is delightfully pleasant and its action is thorough. Constipation yields, biliousness goes. A trial convinces. In yellow tin boxes only. Tried care, used always.

What passes for sympathy is often like women's hair; a lot of it is false.

### Her Foul Accent.

"Her French pronunciation is fearful and wonderful."  
"Yes, at the breakfast-table this morning she gazed soulfully at her poached egg and murmured: 'Isn't it chick!'"
